About Terrapin Glassblowing Studio

What started in 2009...

as a way for our own family to find peace with grief has blossomed into a beautiful way to share that healing with the world. We respectfully encase people or pet's crematory ashes into molten glass forms. This is a delicate process done only by our most experienced glassblowers in a private setting. The studio is owned and operated by Dominique and Anne Marie Caissie, a mother/daughter team, and is located in the heart of the Monadnock Region of New Hampshire.
